

DESCRIPTION

The option "SERVICE BOOK" in the main menu (see buttons below) offers an overview of all service / repairjobs.

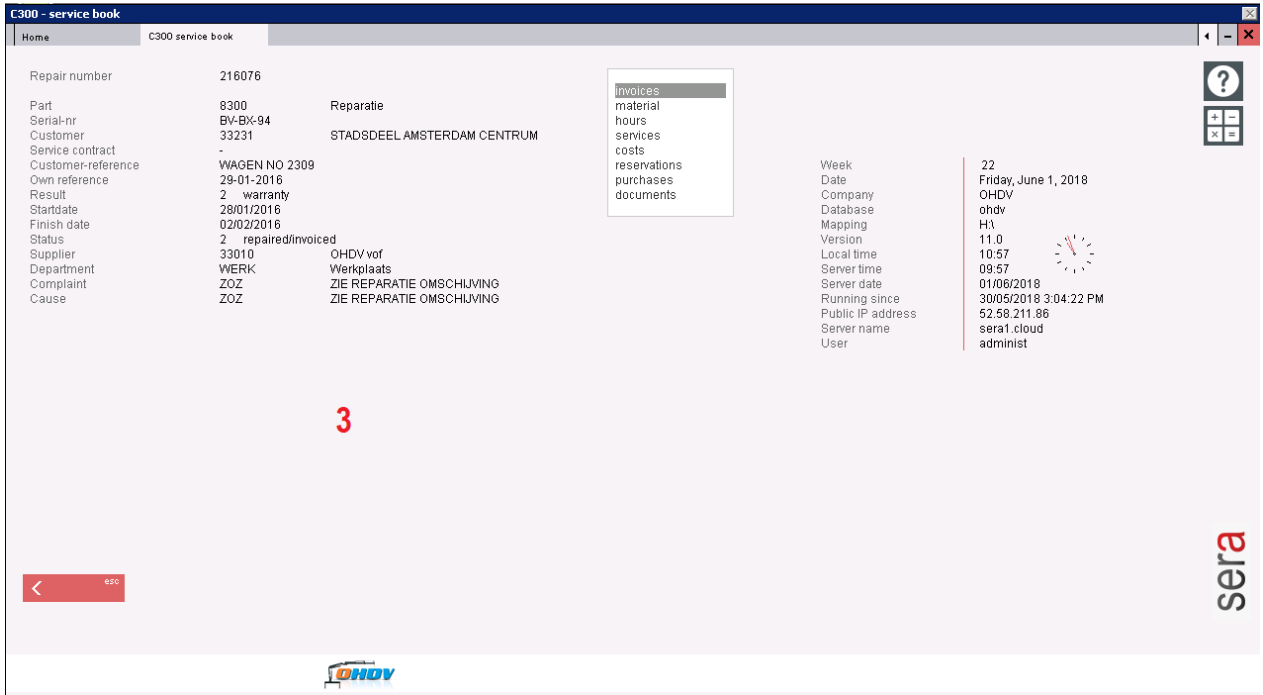

After clicking a list of all jobs appears. The list can be sorted in different ways (2) and it is possible to set filters per customer, serial number etc.

It is possible to jump to a number, a customer, supplier etc. depending on the sorting that is active at that moment.

By pressing ENTER a detailed page of the job opens. A popup menu gives the options to look up the invoices, used material, hours.

A special option is "Documents". The system opens location where you can store pictures and documents.
